

SIMPLY PRODUCTIVE  
WITH CONNECTIVITY.

CORDLESS PRECISION FASTENING SYSTEMS

any or application, you can count on Ingersoll Rand as a trusted partner to help

## KEY DESIGN

### EASILY IMPLEMENT CHANGE

selection, training  
ation costs  
e, ergonomic  
order, fast

- Easy line integration and rebalancing
- Multiple product options
- Connectivity options enable fast programming

### MEET YOUR REQUIREMENTS

- Performance that optimizes your productivity
- Durable designs, lower cost of ownership
- Advanced diagnostics identify problems and enhance safety

## SIMPLE

- Multi-function display module for quick setup and feedback
- Compact, lightweight and ergonomically balanced so the operator can work without restraints
- The intuitive INSIGHT Connect app will help you stay productive & mobile on the plant floor via Bluetooth or wired connection.

## FLEXIBLE

- Provides up to 32 fully programmable configurations on a single tool, reducing costs and workspace clutter
- Fast and intuitive programming makes the tool easily adaptable to any needed changes on your assembly line
- Cordless and portable, allowing for effortless movement around your facility

## CAPABLE

- At the heart of every tool is the closed-loop transducer control that delivers precise torque and accurate, traceable results
- Available in a variety of configurations, including pistol grip, angle wrench, multiplied, and ETS
- Wireless & Bluetooth communication options enable flexible line integration, remote monitoring and simple system programming across a plant-wide network
- Manage cycle data, control the process, receive system status alerts and implement configuration adjustments in real time with INSIGHTqcx™ using

QX Connect Series™  
Precision Screwdriver

QX Series  
1,000 Nm

The QX Connect Series™ line of products give you closed-loop control process, and the ease of mobility with different connectivity options for programmable tightening strategies to deliver higher quality fastened joints is unmatched by other solutions. The diversity of the QX Series™ lineup offers a capable solution for any fastening need.

# 32.5

## FEATURES

- Flexibility to utilize the same tool on multiple applications
- Program 32 PSETs configurations into one tool
- Visual torque validation on display
- Transducerized for precise torque measurement
- Closed-loop control of torque, speed and degrees of rotation
- Flexible Connectivity options with Bluetooth for simple programming using the INSIGHT Connect app or back of tool programming.
- Visual operator feedback using green, yellow and red lights
- Programmable preventative maintenance alarms
- Maintenance indicator for troubleshooting and diagnostics
- 1200 cycles of data storage

QX Connect Series™ platform, with less the torque reaction.

### What is ETS (Ergonomic Tightening System)

ETS stands for "Ergonomic Tightening System". QX + ETS delivers all the performance of the standard QX Series™ precision fastening tools, with an improved ergonomic balance and a lower average amount of force experienced by the operator during the tightening process.

QX + ETS reduces average reaction force experienced by the QX Series™ user up to

**↓ 63%**

When ETS is Active, the operator's arm movement is limited to a series of smaller movements instead of one large movement.

### FEATURES

- Ergonomically enhanced motor control algorithm significantly reduces the average force experienced by the operator during the tightening process
- Red foot label provides clear indication of ETS tool identity vs standard QX tool
- Continuously flashing purple light above keypad provides operator assurance that ETS is ACTIVE
- All the capability of the QX platform, without the torque reaction
- Common software and battery platform for simple integration
- ETS features are available for all QX Connect models and available in pistol grip, low torque angle and high torque angle
- Onboard 'pulse' counter supports proper optimization and application of ETS tools on ideal applications (10 pulses or less per cycle)

### SIMPLE SETUP

In addition to standard direct drive mode, each tool configuration can be independently programmed to

**Performance Mode** is the best all-purpose

...s™ has been instrumental  
control of their fastening  
...le, and capable performance.  
X Limitless platform we're adding  
...ant' to the bottom line. Dual-  
...eliver a seamless, uninterrupted  
communication range than other  
...er.

## Control • Confidently Secure

- Security Authentication
- Extended Coverage on Mesh Networks

## CONNECTIVITY

The QX Limitless platform enhances seamless, plant-wide connectivity across a broader range where access points share the same SSID and password. Incorporating dual band communication technology, the system helps to eliminate communication breakdowns in high-traffic work zones to ensure no loss in production.

- Dual Band Communication seamlessly switches between 2.4 and 5 Ghz Band
- Reduces Limitation of Communication distance between Tools and Controller

## CONFIDENTLY SECURE

QX Limitless delivers greater confidence, connecting with the devices you need just as importantly, NOT the ones you don't need. As a single product, it complies multiple IT cybersecurity regulations, increasing data protection, restricting access non-authorized devices, and providing ease of adoption across more systems.

## COMPLETE CONTROL

The QX Limitless limits your hardware footprint by connecting more tools on a site. This fast, reliable system delivers greater control over more tools, delivering quick transfer between devices and reducing installation costs. Plus, your tools are ready cycle much sooner, ensuring increased production efficiency.

- Connect Up to 10 Tools with INSIGHTqcx™ Controller
- Upto 40% reduction in Hardware footprint
- Faster data Transfer

## SPECIFICATIONS

Product Family		QXWD
Torque Range		0.8-80 Nm
Tool Configuration		Pistol and Angle
Wireless Communication		WLAN + ZigBee + BLE
Band		2.4 and 5 Ghz (Dual Band)
Security Authentication		WPA/WPA2, EAP-TLS, EAP TTLS, PEAP
Ergonomic Tightening System		Optional

- Program 32 Configuration on one tool
- Visual Torque validation on display
- With INSIGHTqcx™ complete integration to plant wide Ethernet network, for increased productivity and control

INSIGHT Net  
connect App

Multiplier is world-class in quality, control and programmable configurations

allowing for quick setup and tool such as torque, angle and of tools needed when multiple

shooting and diagnostics make the tool easily adaptable available

mobile and in control of your any Ingersoll Rand® QX Connect for additional technical training permissions or a laptop computer or tablet, operators can use the torque and angle control configuration transducerized tools.

Once installed, the INSGHT™ Connect app can operate offline, so it functions in large facilities or other locations where Internet signal loss may be a problem, reducing downtime and maximizing ease of use. The INSGHT Connect App is a perfect companion to complement QX Connect Series™ tools\*. With Bluetooth capability, the INSGHT Connect App can communicate wirelessly via Bluetooth with the QX Connect tools.

You can quickly perform key tasks with your mobile device, including:

**SIMPLE**

- Common Setting & General Tool Setup
- Multiple Language Support
- Retrieve Cycle Log and Share via Email
- Audit Logs
- Error Codes with Description

**FLEXIBLE**

- Program All Standard QX Platform Tool
- Clone- Back Up and Restore
- Save and Load Configurations
- Firmware Update
- Virtual tool programming

er is the perfect solution to simply increase the flexibility of your QX pistol  
 erages the closed-loop capability of the QX tool to the most unique applications.  
 meet the requirements of applications where restricted access requires a custom  
 on applications requiring a special head adapter, include assembling aircraft  
 ars and trucks.

**SIMPLE**
